📄 PROFILE OVERVIEW

Over 7 years of experience in developing scalable back-end solutions using Java, Spring Boot, and Hibernate. Proficient in designing RESTful APIs for robust service communication. Skilled in working with both relational and NoSQL databases. Experienced in integrating JavaScript for full-stack development when needed. Known for a strong eagerness to learn and explore new technologies. Quick to adapt in dynamic environments and collaborate effectively with cross-functional teams.

🎓 EDUCATION

Engineering Doctorate in Software Technology

Eindhoven University of Technology
11/2024 – Present

BSc. in Computer Science of Engineering

University of Dhaka
01/2013 – 04/2017

🛠 EXPERIENCE

Eindhoven University of Technology

Engineering Doctorate Trainee in Software Technology
11/2024 – Present | Eindhoven, The Netherlands

- Worked as the **Software Architect** for an in-house project for the **TU/e Security Group**, focusing on Retrieval Augmented Generation (RAG) pipeline development for narrative generation from security alert graphs.
- Led a 4-member team as the **Project Manager** in developing a fine-tuned LLM for automated extraction of digits from eggshell images
- Contributed across all **SDLC phases** (V-model)
- Participated in **Software Architecture, Professional Development, Project Management**, and more workshops.
- Developed industry-oriented projects as part of the sessions.

Gartner

Software Engineer

06/2022 – 10/2024 | Remote

- Created features for **sharing** and **commenting** on research documents or webinars within a **team** environment
- Created a **Profile Alert** feature to signal **incomplete** or **outdated** profiles
- Implemented significant features and endpoints within **guser-api**, the foundational module of **Gartner**, focusing on users' metadata and functionalities
- Worked on **Oracle** to **PostgreSQL** Migration for our owned APIs
- Worked on **Spring/JDK Upgradation** in existing microservices

Therap (BD) Limited

Software Engineer II

08/2017 – 05/2022 | Dhaka, Bangladesh

- Redesigned **Behavior** module, including:
 - Existing **Data Migration** (*of 15 years and about 10 million rows*)
 - New structure design/implementation
- Implemented one of our **Reporting Framework**, including:
 - structure design/implementation (*i.e. using Builder Pattern, Constructor Chaining, etc*)
 - Building **Optimized DB Queries**
 - Performing **Cost-Efficient DB functions** in **Java** side to minimize DB overhead
- Implemented a **Cron Job Scheduler** to dump files with many fields to California state interface
- Developing features of one of our biggest modules used for **Incident Reporting**

SKILLS

Java, Spring, JPA	● ● ● ● ● ●
Oracle, PostgreSQL, MongoDB	● ● ● ● ● ●
Microservices, REST APIs	● ● ● ● ● ●
JavaScript, Node.js, React	● ● ● ● ● ●
AWS, Jenkins	● ● ● ● ● ●
Git, Jira, Agile Methodology	● ● ● ● ● ●
Problem Solving	● ● ● ● ● ●
Attention to Detail	● ● ● ● ● ●
Punctuality & Time Management	● ● ● ● ● ●

English C2	● ● ● ● ● ●
Dutch A1	● ● ● ● ● ●

PROJECTS

Soccer Manager Game API

Java, Spring Boot, JPA, MySQL

Created **APIs** for an online soccer manager game where users can create/manage **fantasy teams** and will be able to buy/sell fictional **players** among them.

AutoFlow Graph Descriptor

Python, FastAPI, ChromaDB, LMStudio

Developed a **Retrieval Augmented Generation (RAG) pipeline** for generating narratives and predicting missed intermediate gaps from **security alert graph** clusters.

DevCamper API

Node.js, Express, and MongoDB

Developed a robust back-end API for a **multi-role bootcamp directory application**. Implemented full CRUD operations for **bootcamps, courses, reviews**, and **users** with role-based access control.

GitHub Crawler

Node.js, Express, GitHub Search API

Implemented a **schedule based crawler** that saves important information of the public latest **GitHub repositories** for one week.

Online Doctor Booking Management

Java, Spring MVC, JPA, JSPs

Created a multi-role-based online **doctor booking management application** with a custom **automated scheduling** approach.

INTERESTS

Travel

Enjoy exploring mountainous regions.

Sports

Enjoy playing badminton and cricket for recreation and fitness.
